RESPONSE TO OFFICE ACTION

Responsive to the Office Action, dated May 20, 2002, please amend the application as follows.

IN THE CLAIMS

14. (Twice Amended) A semiconductor device comprising:
a substrate;
active regions of two or more adjacent transistors, the active regions having at least more than one first and second electrodes disposed on the substrate;
a plurality of transistor gates disposed on the substrate between more than one first and second electrodes of those active regions respectively, wherein two or more gates are of a predetermined width and length at a substantially identical gap therebetween without intervening dummy gates therebetween; and
a plurality of dummy gates having predetermined width and length between ones of the adjacent transistors at a substantially identical gap therebetween, without intervening transistor gates therebetween, respectively.

15. The device, as defined in claim 14, wherein the length of the dummy gates is substantially the same as that of the transistor gates.
